Split straw at base to make four tabs. Tape down onto mask so that straw stick out. Do same for other side.

This is a sweat drain!

Cut out

Cut hole in ears for string

Cut holes under nose to insert hair (netting).

Cut along dotted line at sides of nose to pop out nostrils.

Cut out hole in neck.

Openings in neck guard and by lower cheeks are sweat drains. It must have been hot inside a samurai mask and helmet!
